

PROPOSAL 8-12 (2008)

SCOPE: Sec. 13.1.4 of the 2009 Provisions

PROPOSAL FOR CHANGE:

Revise the following Sec. 13.1.4:

13.1.4 Exemptions. The following nonstructural components and their attachments are exempt from the requirements of this section:

REASON FOR PROPOSAL:

There has often been confusion as to whether or not the exemptions in Section 13.1.4 apply to the seismic adequacy of the component itself or to the component anchorage (or to both) as these two terms are defined separately in Chapter 13. The additional language is to clarify that components listed in 13.1.4 are completely exempt and do not require any seismic anchorage or bracing.

TS 8 VOTE:

<i>YES</i>	<i>Yes with Reservations</i>	<i>No</i>	<i>Not Voting</i>
<i>12</i>	<i>1</i>	<i>0</i>	<i>0</i>
