

# The Beyond Green™ High-Performance Building and Community Award Application Form

The award recognizes the initiatives that shape, inform and catalyze the high-performance building market, as well as the real-world application of high-performance design and construction practices.

High-performance buildings meet eight design objectives: sustainability, accessibility, aesthetics, cost-effectiveness, functionality, productivity, historical sensitivity, and safety and security. (Resilience falls within the 'safety and security' objective.)

The Beyond Green™ Award distinguishes those projects and activities that best exemplify the attributes of high performance.

Once selected, one representative of the project will be invited to present and receive the award at Building Innovation 2024, May 22-24 in Washington, DC. The awards presentation gives winners an opportunity to share their project results directly with leaders across the building industry, highlighting the challenges and opportunities they faced while supporting delivery of high-performance buildings and communities.

The winning project will be published as a case study on the Whole Building Design Guide (WBDG) website. Additional recognition will include an announcement in the NIBS Quarterly Newsletter, a plaque, and potential inclusion in future NIBS publications. Call for nominations opens January 16, 2024 and closes March 8, 2024.

Please send complete nominations package to Jennifer Hitzke, Director, Governance & Special Programs at [jhitzke@nibs.org](mailto:jhitzke@nibs.org)

\*Note that the award is for projects that have been completed since March 31, 2022.

## 1. Project Information

Project name: \_\_\_\_\_

Project location: \_\_\_\_\_

Completion date: \_\_\_\_\_

## 2. Nominator Information

Submitted by: \_\_\_\_\_

Title: \_\_\_\_\_

Organization: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

### **3. Project Owner(s) Information**

Project owner: \_\_\_\_\_

Contact person: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

### **4. Project Design Information**

List all firms associated with the design of the project:

### **5. Project Construction**

List all firms associated with the construction of the project:

## 6. Design & Construction Information

Brief description of the project including: type, scope, duration, cost, and goals. [Limit of 500 words]

A large, empty rectangular box intended for the user to provide a brief description of the project, including details on type, scope, duration, cost, and goals. The box is currently blank.

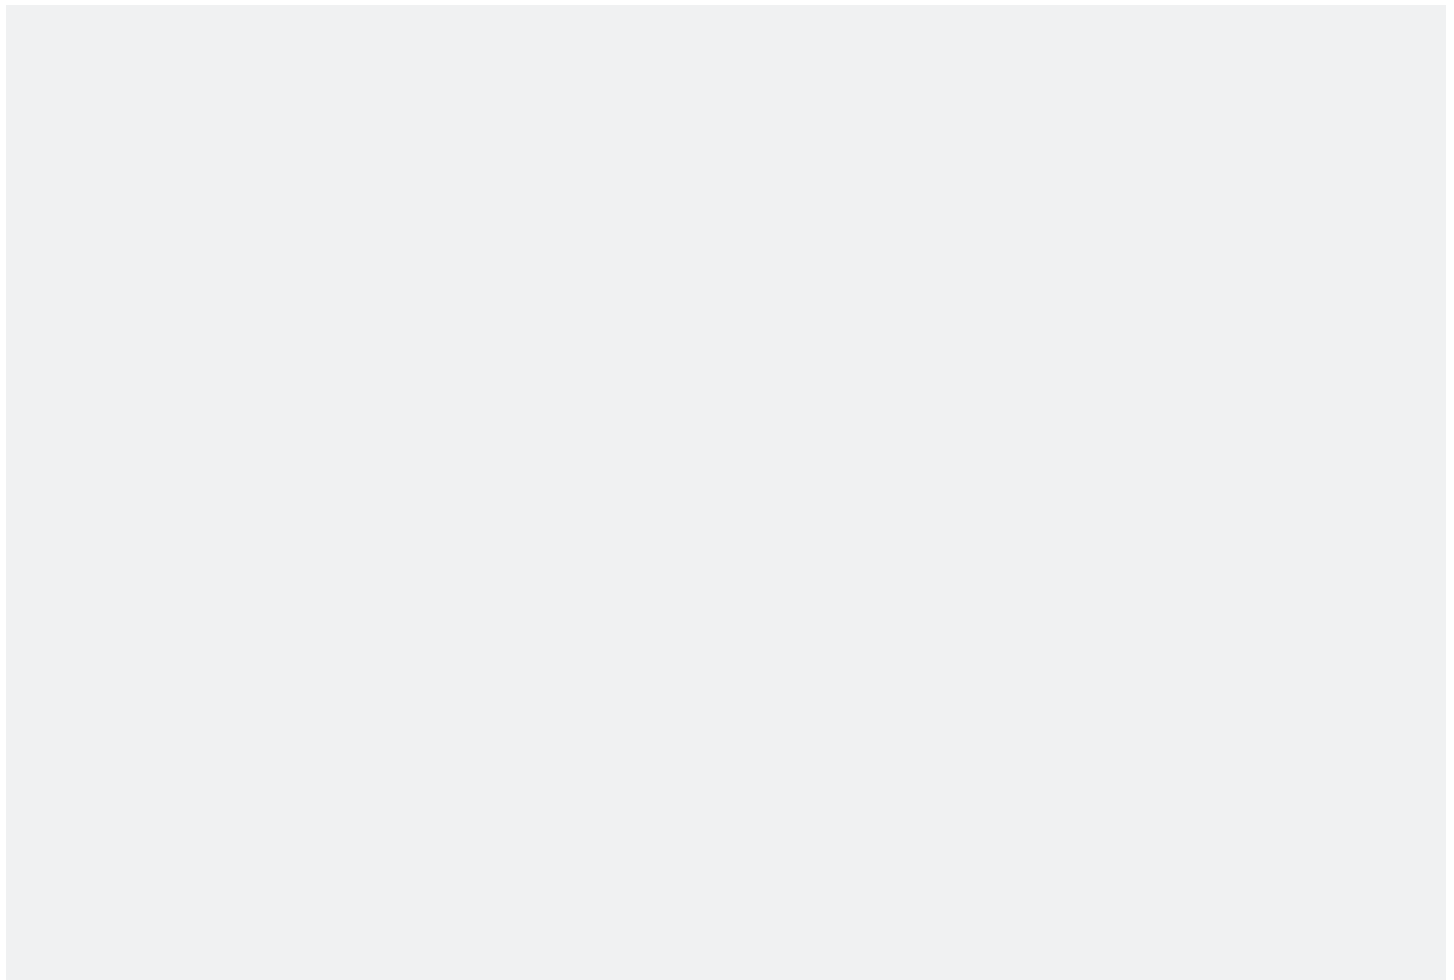

## 7. High-Performance Design

In narrative format explain how the project met the eight design objectives of high-performance buildings: sustainability, accessibility, aesthetics, cost-effectiveness, functionality, productivity, historical sensitivity, and safety and security (Resilience falls within the 'safety and security' objective).

[limited to 4 pages, submit separately]

## 8. Additional Information (optional)

- a) AV presentation or photographs of the project before, during, and after construction [attach separately].
- b) Links to relevant achievements, awards, publications, etc.
